

Three Rivers District Health Department

Working to Prevent Injury and Save Young Lives.

Safe Kids Three Rivers is a group of organizations within our community who joined together to help raise public awareness on preventable childhood “accidents”.

- Injury is the leading killer of our children.
- Injuries kill more children each year than diseases, kidnapping, and drugs combined.

Please join us.

The success of our chapter will depend on the support of volunteers who are committed.

To obtain more information and a membership form please visit us at www.threeriverspublichealth.org, or by calling 402-727-5396.
